

Photography Policy

Photographing, Filming, or making Audio recordings, of public programs, of members of the public, or of members of the Library Staff on duty is prohibited, unless permission is granted in advance by the Library. Library Staff may record, or photograph Library programs and events to be used in our newsletter, website and or social media. Library staff will make every effort to notify library patrons when photography and video recordings are taking place. Any patrons who do not want to be photographed and/or recorded will be respected. Photographing the outside of the building is allowed as long as it does not interfere with Library Services.

The Library can make no guarantee of any participants' privacy during online programs (included, but not limited to, Zoom or Facebook). The Library cannot control other Patrons recording or taking screenshots of programs, which may contain patron information on the screen.
